EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Michael O'Neill on June 16, 2004.

The application has been amended as follows:

IN THE CLAIMS:

- Claim 74: Rewrote claim 74 as follows:

--74. A multibeam scanning optical apparatus according to Claim 67, further comprising:

~~at least one~~ an image carrier arranged on the ~~at least one~~ surface to be scanned.--

2. The following is an examiner's statement of reasons for allowance: Claims 1 and 63 are patentable over the prior art patents and printed publications because of the specific control of the timing of the start of scanning of the plurality of light beams in a multi-beam scanning optical apparatus so as to align the centers of the scanning areas of the plurality of light beams with each other on the surface to be scanned while allowing starting points of scanning of the plurality of light beams to differ from each

other when the plurality of light beams have respective wavelengths that are different from each other, which is not taught by the art of record alone or in combination.

Claims 2-10, 40, 56, 67, 74, and 80 are allowed because they are directly or indirectly dependent from claim 1 above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
